Location: Pudukkottai, Tamil Nadu

Career Objective

AI/ML Engineer with hands-on experience in Machine Learning, Deep Learning, Data Analytics, and Python gained through academic projects and self-learning. Skilled in building real-time AI applications, data preprocessing, model training, and deployment. Seeking an opportunity to apply my skills to solve real-world problems.

Education

Kathir College of Engineering, Coimbatore
Bachelor of Technology – Artificial Intelligence and Data Science | 2021–2025
GPA: 7.4/10
Government Higher Secondary School, Neduvasal
HSC – Computer Mathematics | 2020–2021
Percentage: 81%

Projects

1. Real-Time AI-Based Sitting Posture Corrector | Feb–May 2025

- **Developed a posture-monitoring web application using React and Python.**
- **Implemented slouch detection with OpenCV and automated email alerts after 20 seconds of poor posture.**
- **Integrated Firebase Authentication and Power BI dashboards for posture statistics and session history.**

2. Real-Time Voice Cloning Methodology | Oct–Nov 2023

- **Developed a DL model using TensorFlow, Synthesizer, and NeuralVocoder.**
- **Implemented feature extraction, preprocessing, and audio generation.**
- **Achieved realistic voice synthesis with low latency.**

3. Salary Prediction using Random Forest | Apr–May 2023

- **Built ML model using Random Forest Regression.**
- **Performed data cleaning, EDA, encoding, and model evaluation.**

Courses & Certificates

- **AI Hybrid Training Program – Cultus Education - TN Skill | Aug 2025 – Present**
- **DevOps – Guvi (Apr 2024)**
- **Data Analysis with Python – Infosys Springboard | Jul 2024**
- **Deep Learning with Python – Great Learning | Oct 2023**
- **Python Programming – Guvi | Aug 2023**

Skills

- **Programming Languages: Python, SQL, C**
- **Machine Learning: Regression, Classification, Clustering, Feature Engineering, Model Tuning, Evaluation Metrics**
- **Deep Learning: Neural Networks, CNN, RNN, LSTMs, Transfer Learning**
- **Python Libraries: NumPy, Pandas, Scikit-learn, Matplotlib, Seaborn, TensorFlow, PyTorch, OpenCV**
- **Tools & Platforms: Jupyter Notebook, Google Colab, VS Code, Git/GitHub, Power BI, Excel**
- **Databases: MySQL, Firebase**
- **Web Technologies: Django, Flask, REST APIs**

Languages

- **Tamil**
- **English**
