PROFESSIONAL SUMMARY

AI & Data Science graduate with hands-on expertise in **Python, SQL, Machine Learning, Deep Learning, NLP, Computer Vision, and Business Intelligence**. Proven track record in developing predictive models, data pipelines, and actionable analytics. Experienced across Data Science, Deep Learning, and Automation Testing internships. Strong foundation in **Statistical Analysis, Feature Engineering, Model Evaluation, and Agile methodologies**.

PROFESSIONAL EXPERIENCE

Data Science & AI Intern

Jan 2025 – Apr 2026

Besant Technologies, Bangalore

- Engineered **predictive models** using supervised/unsupervised learning for business forecasting; applied feature engineering and cross-validation.
- Built dynamic **Power BI dashboards** with DAX and data modelling, translating complex KPIs into executive-level insights.
- Performed **EDA, statistical analysis**, and data preprocessing on large datasets to identify trends and anomalies.

Deep Learning Intern

Aug 2024 – Present

Intern Certify

- Designed and trained **CNN/RNN neural networks** with optimized loss functions, hyperparameter tuning, and regularisation techniques.
- Implemented **computer vision** and pattern recognition pipelines using TensorFlow/Keras for image classification tasks.

Automation Testing Intern

Aug 2024 – Sep 2024

Infogro Technology

- Developed **Selenium**-based automated test scripts, reducing regression testing cycle time by 40% in agile sprints.
- Analysed verification metrics to detect vulnerabilities and improve system reliability.

KEY PROJECTS

• Heart Disease Prediction & Analysis

ML classification model using Logistic Regression, Random Forest & XGBoost on clinical data; full EDA, feature engineering, SMOTE balancing, ROC-AUC evaluation.

• Store Demand Forecasting

Time-series forecasting (ARIMA, SARIMA) with statistical preprocessing and EDA for retail inventory optimisation.

• AI-Generated Content Detector

NLP text classification pipeline with TF-IDF tokenisation, BERT embeddings, and ensemble ML models to detect AI-written content.

• Movie Prediction Analytics

Regression models (Gradient Boosting, Ridge) forecasting box office revenue; feature selection and interactive visualisations.

TECHNICAL SKILLS

Languages: Python, SQL, JavaScript, HTML, CSS

ML / AI: Supervised Learning, Unsupervised Learning, Deep Learning, NLP, Computer Vision, Feature Engineering, Model Evaluation, Hyperparameter Tuning

Frameworks: TensorFlow, Keras, Scikit-learn, Pandas, NumPy, Matplotlib, Seaborn, NLTK, OpenCV

BI & Tools: Power BI, Excel, Jupyter Notebook, Git, GitHub, VS Code

Domains: Predictive Analytics, Risk Profiling, Statistical Analysis, Business Intelligence, GenAI, Automation Testing

EDUCATION

B.Tech – Artificial Intelligence & Data Science

2022 – 2026

Tagore Institute of Engineering and Technology, Tamil Nadu

CERTIFICATIONS

GenAI Powered Data Analytics (Forage) · AWS AI Practitioner (Udacity) · Data Science Fundamentals (IBM) · Software Testing with Selenium (Infogro)

Languages: Tamil (Native) | English (Professional Working)
