PROFILE

AI/ML developer focused on leveraging data-driven insights to solve complex business problems. Skilled in ML workflows, Business Intelligence, and building scalable digital solutions that bridge the gap between advanced analytics and operational efficiency.

PROJECTS

- **Sentinel-X: Adversarial Legal Intelligence Core** [Git Repo] | [Watch Demo]
Optimized legal workflow efficiency, achieving an 80% productivity surge, by architecting a local-first MCP ecosystem and Multi-Agent Collaborative Debate (MAD) protocol for high-accuracy, privacy-centric data tool integration.
Tech Stack: MCP, RAG, Multi-Agent AI, FastAPI.
- **RE-Dact: AI-Powered PII Redaction with Reversible Steganography** [Git Link]
Strengthened sensitive information security across diverse domains through a 100% reversible recovery mechanism by engineering an automated toolkit using NLP for PII detection, encrypted audit logging, and secure steganographic protection.
Tech Stack: Python, NLP, Unstructured Data Processing, Cryptography, Steganography.
- **GenStyle AI Recommendation System – Fashion Stylist with AR** [Watch Demo]
Enhanced consumer engagement and styling accuracy by deploying a cloud-backed Generative AI assistant that delivers personalized outfit recommendations integrated with real-time AR virtual try-on experiences.
Tech Stack: Generative AI, Augmented Reality (AR), AWS, Machine Learning, Computer Vision.
- **AI Interview Coach: Sentiment Analysis for Technical Prep** [Site Link]
Improved candidate performance metrics through real-time feedback loops by developing an interactive mock interview system utilizing NLP-based sentiment analysis and content relevance evaluation of spoken responses.
Tech Stack: Python (Flask), React, NLP (TF-IDF, Naive Bayes), Speech Recognition.

EDUCATION

Coimbatore Institute of Technology June 2023 – May 2028
MSc in Artificial Intelligence and Machine Learning (Integrated) CGPA: 8.28/10.0

TECHNICAL SKILLS

- **Languages and Tools:** Java, Python, Git, GitHub
- **Data Analytics & Libraries:** SQL, SQLite, Business Intelligence, RAG, MCP, Pandas, NumPy, Matplotlib
- **Full Stack Technologies:** HTML, CSS, JavaScript, React, Flask, FastAPI
- **Core Concepts:** Data Structures and Algorithms, DBMS

AREAS OF INTEREST

- Machine Learning and AI
- Business Intelligence
- Data Privacy in AI
- Data Science and Analytics
- Predictive Modeling
- Full Stack Digital Solutions

CERTIFICATIONS & WORKSHOPS

- **NPTEL Certification:** Certified in Business Intelligence and Analytics Jan – Apr 2025
- **Workshop Completion:** "Merge Mastery - A Workshop on Git and GitHub", CIT June 2025

ACHIEVEMENTS

- **Finalist & Excellent Technical Implementation:** NEOVERSE'26 (National Level AI Hackathon) March 2026
- **First Runner-Up:** Doctor Dev National level Hackathon (E-Summit 2026) (Won Rs.15k) Feb 2026
- **Winner, Techastra'25 Hackathon:** 1st Place (Rs.10k prize), Dr. M.G.R. Institute, Chennai Sept 2025
- **Winner, INNOVISION '25:** Achieved First Place with a cash prize of Rs. 5,000, Datalytics, CIT Sept 2025
- **Winner, Internal SIH '25:** Selected as Top Team, Dept. of Computing, CIT Sept 2025
- **3rd Place, Model Presentation:** National Science Day '25, IIC & Dept. of Computing, CIT Feb 2025
