PROFESSIONAL PROFILE

Pre-final year AI & ML student with two industry internships completed in the same winter, gaining hands-on exposure to Data Science, Web Development, and Data Analysis. Built and shipped ContextOS — a complete software product using Azure DevOps with CI/CD pipelines, Agile sprints, UML diagrams, test plans, and load testing. Eager to learn fast, contribute meaningfully, and grow in a real AI environment.

INTERNSHIP EXPERIENCE

PixelBotix Technologies Pvt. Ltd., Chennai

Intern — Web Development & Data Analysis · Dec 2025 – Jan 2026

- Worked on live projects involving web application development, data handling, and analytical reporting
- Contributed to front-end modules and back-end data pipelines in a fast-paced product startup
- Consistently praised for problem-solving ability, quick learning, and teamwork throughout the tenure
- Awarded formal Completion Certificate (PBX/INT/2025/09) recognising outstanding dedication

Altruisty Innovation Pvt. Ltd.

Intern — Data Science · Dec 16 – 31, 2025

- Completed intensive 15-day Data Science internship with practical exposure to data pipelines and model workflows
- Applied data pre-processing, exploratory data analysis, and model evaluation on real datasets
- Acknowledged by HR & Executive Lead for outstanding performance (Reg: 1252025750)

PROJECTS

ContextOS — Never Lose Your Train of Thought

Azure DevOps · Python · CI/CD · UML · Agile · github.com/Dharinibalamurugan/ContextOS

- Designed and delivered a full-lifecycle software project using Azure DevOps — from Epics and User Stories to deployment
- Managed Sprint Planning, Agile backlog, Class/Sequence/ER diagrams, Test Plans, Load Testing, and CI/CD automation

Web Scraping & Data Extraction Engine

Python · BeautifulSoup · Selenium · Pandas · github.com/Dharinibalamurugan

- Built automated scraper for static and JavaScript-rendered pages; structured raw data with Pandas and generated visual reports

ML Classification Pipeline

Python · Scikit-learn · NumPy · Matplotlib · github.com/Dharinibalamurugan

- End-to-end supervised pipeline: data ingestion → pre-processing → feature engineering → model training
- Benchmarked Logistic Regression, Decision Tree, and SVM; visualised accuracy, confusion matrix, and ROC curve

TECHNICAL SKILLS

Languages: Python (basics), HTML, CSS, JavaScript (basics)

ML / AI: Scikit-learn, Pandas, NumPy, Matplotlib

Web Scraping: BeautifulSoup, Selenium, Requests

DevOps: Azure DevOps, CI/CD Pipelines, Git, GitHub

Agile: Scrum, Sprints, Epics, User Stories

Tools: VS Code, Jupyter Notebook, MySQL (basics)

EDUCATION

Rajalakshmi Engineering College, Chennai

B.Tech – Artificial Intelligence & Machine Learning · 2024 – 2028

Pre-Final Year · 3rd Semester · CGPA: 7.67 / 10

CERTIFICATIONS

Data Science Internship Completion

Altruisty Innovation Pvt. Ltd. · Dec 2025

Web Development & Data Analysis Internship

PixelBotix Technologies Pvt. Ltd. · Jan 2026

PERSONAL DETAILS

Languages Known: English, Tamil

Location: Chennai, Tamil Nadu

Availability: Open to Internships, Part-time & Project Collaborations
