
Bhavatharani Babu

Bioinformatics & Data Science Student

Chennai, Tamil Nadu, India

7604895263 | bhavatharanibabu@gmail.com | linkedin.com/in/bhavatharani-babu-0551b2354/

SKILLS

Python • Machine Learning • Data Analytics • SQL • Power BI • Excel • C Programming
• Bioinformatics Tools • Web Development (HTML, CSS, JavaScript, Node.js)

EXPERIENCE

Eisystems Technologies (Technex '25, IIT BHU Varanasi), Remote - *Data Science with Python Intern*

December 2025 – January 2026

- Completed training on Data Science with Python; submitted a project report on Area Price Prediction System Using Machine Learning.
- Applied Python-based ML techniques including data preprocessing, feature engineering, and regression modelling for real-world price prediction tasks.

Nyberman Bioinformatics, Remote - *Machine Learning for Biomarker Discovery*

September 2025 – October 2025

- Applied ML techniques to identify potential disease biomarkers and analyze biological datasets using Python and Scikit-learn.

Cognifyz Technology, Remote - *Machine Learning Intern*

September 2025 – October 2025

- Applied Python and machine learning algorithms to data-driven projects, improving analytical and model-building skills.
- Gained hands-on experience in data preprocessing, feature extraction, and model evaluation for real-world datasets.

E-cell IIT Roorkee (Jyesta Corporate Entity), Data Analytics

Feb 2026 – present (remote)

Tata Consultancy Services (TCS), Remote - *Micro-Internship*

- GenAI Data Analytics
- Cybersecurity Analyst

PROJECTS

Diabetes Risk Prediction Using Interpretable Machine Learning

- Developed an interpretable ML model for population-level diabetes risk screening using the LASI (Longitudinal Aging Study in India) dataset,

externally validated on NHANES; implemented Logistic Regression, SVM, and other classifiers in Python achieving ~83% recall on the positive class.

- Manuscript submitted to *Discover Public Health* (Springer Nature) — Under Review.

ML Internship Projects — Cognifyz Technologies

- Built and evaluated ML models for restaurant rating prediction, personalized recommendations, and location-based analytics.
- Applied data preprocessing, feature engineering, and model evaluation using Python, Pandas, and Scikit-learn to deliver data-driven insights in the food service domain.

Biomarker Identification for Rheumatoid Arthritis Using ML Approaches

- Built using Python; trained ML models to classify and identify key biomarker genes from a disease dataset.

To-Do Web Application

- Built an interactive To-Do web application using HTML, CSS, JavaScript, Node.js, and MySQL.

EDUCATION

Sathyabama Institute of Science and Technology, Chennai - *B.Sc*

Bioinformatics and Data Science

2024 – 2027 (Current) | CGPA: 8.33

Ponvidyashram Group of Senior Secondary School, Chennai - *Class I - XII*

2011 – 2023 | Class X: 74% | Class XII: 90.8%

COURSES & CERTIFICATIONS

- Data Analytics Masterclass — NoviTech
- Full Stack Development — Sathyabama Institute of Science and Technology
- Introduction to Machine Learning — NPTEL SWAYAM (Elite)
- Introduction to Internet Of Things — NPTEL SWAYAM (Silver Elite)
- Data Analytics — E-Cell IIT Roorkee (Jyesta Corporate Entity)

CONFERENCES & WORKSHOPS

- “National Conference on Frontiers in Biotechnology: Exploring the Biotech Forefront from Bench to Bedside in Healthcare” — 2025 [Presenter], SIST, Chennai.
- “Bio-Intelligence: Powered by Power-BI” — SIST, Chennai
- “STDP in Genomics and Proteomics” — SVCE, Chennai
- “National Conference on Advances in Science, Technology and Management” — 2026[Presenter], Info Insitute of Engineering, Coimbatore
