

RAKSHITHA R

AI Automation Specialist | Data Analyst | Prompt Engineer

+91 9025325264 • rakshiramcha@gmail.com • [linkedin.com/in/rakshithaaa](https://www.linkedin.com/in/rakshithaaa) • Chennai, Tamil Nadu

PROFESSIONAL SUMMARY

Motivated AI & Data Science fresher with hands-on experience building end-to-end no-code AI automation pipelines. Skilled in prompt engineering, LLM workflows and multi-tool integrations using Pabbly Connect and Google AI Studio. Proven ability to translate business problems into working AI solutions. Available for immediate joining.

TECHNICAL SKILLS

AI & Prompt Engineering: Advanced Prompt Design, Role Assignment, Hallucination Avoidance, Google AI Studio (Gemini API), LLM Optimization

No-Code Automation: Pabbly Connect, Zapier, Webhook Integration, Multi-node Workflow Design, API Connections

Data Analytics: Zoho Analytics Ecosystem, Interactive Dashboarding, KPI Tracking, Data Cleaning, SQL Basics, MongoDB

Tools: Google Sheets, Google Forms, Canva, Notion, Python (Basic)

AI AUTOMATION PROJECTS

Tamil Amma AI — Automated Instagram Caption Generator for Local Businesses

Tools: Pabbly Connect | Google AI Studio (Gemini) | Google Sheets | Google Forms | Prompt Engineering

- Built end-to-end no-code automation where Chennai small shop owners submit a Google Form and receive an AI-generated Tanglish Instagram caption automatically within seconds.
- Designed a bilingual prompt engineering system with role assignment and cultural context, producing Tamil-English content with relevant hashtags using Gemini AI.
- Connected 3-node workflow: Webhook trigger → Gemini API content generation → Google Sheets storage with zero coding using Pabbly Connect.

Vaalkai Roast — AI-Powered Personalised Roast Generator

Tools: Pabbly Connect | Google AI Studio (Gemini) | Google Sheets | Prompt Engineering

- Built a 3-node AI automation pipeline: Webhook trigger → Gemini AI content generation → Google Sheets auto-storage.
- Engineered creative Chennai-style Tanglish prompts with structured output format, role assignment and hallucination avoidance techniques.
- Integrated Google Forms for dynamic user data collection, generating unique personalised roasts for any user input automatically.

PROFESSIONAL EXPERIENCE

Data Operations Intern | Synprosoft (Zoho Implementation Partner) — SignatureMD (U.S. Healthcare Project)

February 2026 – Apr 2026 | Chennai, Tamil Nadu

- Managed healthcare data cleaning and organization within the Zoho Ecosystem for U.S.-based clients.
- Built interactive dashboards in Zoho Analytics to visualize patient trends and membership KPIs for executive reporting.
- Collaborated with team to ensure data accuracy and smooth workflow reporting.

AI Workflow & Testing Intern | Adaovi — Bengaluru(Online)

Feb 2024 – Mar 2024

- Evaluated AI model performance and assisted in data preprocessing for machine learning projects.
- Researched real-world AI applications to identify ways to automate repetitive business tasks.
- Gained hands-on exposure to how AI products are structured and tested before launch.

Cybersecurity Awareness Intern | *Big C Bucks Innovation — Online*

Jul 2024 – Aug 2024

- Studied organizational security protocols to identify and mitigate potential data threats.
- Completed training on network security fundamentals and vulnerability assessment.

EDUCATION

Bachelor of Technology in Artificial Intelligence & Data Science

Meenakshi Sundararajan Engineering College, Chennai | 2022 – 2026 | CGPA: 8.0/10

CERTIFICATIONS & TRAINING

- Google AI Essentials — Coursera (In Progress)
- Completed “Making Money with AI” 5-day intensive — Built live automation projects
- AI Club Volunteer — Coordinated technical events and AI workshops
- Tamil (Native) | English (Full Professional Proficiency)
