EXPERIENCE

Operations Intern – Fydo Bhubaneswar

06/2024 – Present

Department: Social Media and Marketing

Email Automation using n8n.

A social media and marketing company focused on branding and event coordination. Managed and grew the official Instagram account by creating engaging content and improving follower interaction. Designed posters and social media graphics for marketing campaigns. Assisted in coordinating meetings, preparing structured agendas, tracking progress, and ensuring smooth internal communication. Collaborated with team members on promotional strategies to enhance brand visibility and audience engagement.

PROJECTS

Book Recommendation System

01/2024

A machine learning based system to recommend books tailored to user preferences. Built a recommendation engine using the K-Nearest Neighbors algorithm to suggest similar books based on user-item interaction data. Implemented cosine similarity on sparse matrices to compute nearest neighbors efficiently. Processed large datasets to generate personalized and relevant recommendations.

PDF Question Answering System using RAG

01/2024 – 12/2024

Implemented a system for querying information directly from PDF documents through AI integration. Developed a Retrieval-Augmented Generation pipeline to extract meaningful content and answer user questions. Integrated FAISS vector database for fast semantic similarity search. Utilized Large Language Models to generate accurate and context-aware responses.

LLM Function Router with Real-Time Weather Location API

01/2024 – 12/2024

An intelligent AI system for real-time query handling and automated API interaction. Built an LLM-driven function routing system that interprets natural language queries and generates structured JSON outputs. Implemented logic to extract location information from user input and integrated external APIs to fetch real-time weather and nearest place details.

SKILLS

Machine Learning / AI: Regression Models, Classification Models, CNNs, YOLO, NLP, RAG, LLM Integration, LLaMA2, Gemini, Text Similarity

Data and Automation: Docker, n8n, Rapid-API, FAISS

Libraries and Frameworks: Pandas, FastAPI, NumPy, Scikit-learn, Matplotlib, Seaborn, TensorFlow, LangChain

Languages and Tools: Python, SQL, Git

EDUCATION

Bachelor of Technology in Electrical Engineering

2023 – 2027

Odisha University of Technology and Research

12th Standard

2021 – 2022

Range School Chandipur, Odisha

10th Standard

2019 – 2020

Range School Chandipur, Odisha

CERTIFICATIONS

Python from Zero-to-Hero (Beginner Level)

Platform: Udemy

Data Analytics Certification

Central Tool Room & Training Centre (CTTC), Ministry of MSME, Government of India
