## OBJECTIVE

I am Gobika, a B.Tech student in Artificial Intelligence and Data Science at SSM Institute of Engineering and Technology. I have a strong foundation in data science along with good system knowledge. I am skilled in teamwork and time management, and I am eager to apply my technical skills in a dynamic environment while continuously learning and growing in the field of AI.

## PROJECTS

### MEDICAL DOSAGE CALCULATOR

- Developed a system to calculate accurate medical dosages based on user inputs.
- Focused on improving precision and creating a user-friendly interface for healthcare support.

### SHINGLES IDENTIFICATION

- Performed image-based classification to detect disease patterns with improved accuracy.
- Built a shingles identification system using Computer Vision, Machine Learning, and Deep Learning.

### BUFFALO IDENTIFICATION AND AGE DETECTION (SIH PROJECT)

- Developed a system to identify buffalo and estimate age using image processing techniques.
- Analyzed physical features such as body length to improve prediction accuracy.

## INTERNSHIP

### DATA SCIENCE INTERN | JULY 2025

#### Phoenix Softech

- Completed internship training in Data Science concepts.
- Gained practical exposure to data analysis and basic ML techniques

### AI-POWERED CLOUD ENGINEER VIRTUAL INTERN | JAN 2026 – MAR 2026

#### EduSkills

- Completed a 10-week virtual internship on AI-powered cloud technologies
- Gained knowledge in AWS services, cloud computing, and AI-based applications
