

Boobaragasudhan P

6381181070 | github.com/boobaragasudhan | linkedin.com/in/boobaragasudhan | Tamil Nadu, India

EDUCATION

Chennai Institute of Technology

2024 – 2028

B.Tech – Computer Science and Business Systems

CGPA: 7.21/10

- Relevant Coursework: Data Structures & Algorithms, Web Development, Database Management Systems, Machine Learning Fundamentals, Cloud Computing, DevOps, Networking Essentials, Operating Systems

PROJECTS

LearnMap – Interactive Visual Learning Portal

Next.js 14 · TypeScript · D3.js · PostgreSQL · Redis · NextAuth.js
github.com/boobaragasudhan/learnmap

- Built a **physics-based spider web knowledge graph** using D3.js force simulation on HTML Canvas, rendering **50+ learning domains** as floating text nodes – hovering magnetically clusters 12 subtopics, dragging pulls the entire group via velocity injection.
- Developed **A-to-Z structured roadmaps** per domain with **600+ curated free resources** categorized by Beginner, Intermediate, and Advanced levels with an **inline video player** (react-player) that auto-marks completion when the video ends.
- Engineered **gamification system**: 15 auto-awarded achievement badges, 10 pts/resource & 50 pts/badge, real-time **global leaderboard** for top 50 users with gold/silver/bronze podium.
- Full-stack REST APIs with **Redis caching** (1hr TTL), **8 relational Prisma models**, Google OAuth via NextAuth.js, middleware-protected admin panel – deployed on **Vercel + Railway**.

Internship Auto Messaging System

Python · REST APIs · Automation

- Developed using **vibe coding methodology** – iteratively prompting Claude AI to architect, generate, and refine the entire pipeline from scratch, shipping production-ready automation with minimal boilerplate.
- Built trigger-based workflow with **dynamic message templates** to auto-generate personalized internship application messages and send them at scale via API integrations.
- Implemented **conditional duplicate-filtering logic** and scheduled execution to optimize outreach timing and prevent repeat submissions automatically.

TECHNICAL SKILLS

Languages: Python, JavaScript, TypeScript, C++

Tools: Git, GitHub, Vercel, Railway, Postman, VS Code, n8n

Frontend: Next.js 14, React.js, Tailwind CSS, D3.js, HTML5, CSS3

Backend: Node.js, REST APIs, NextAuth.js, Prisma ORM

Methodology: **Vibe Coding** – AI-assisted rapid development using Claude AI with iterative prompt engineering to build full-stack production apps

Databases: PostgreSQL, MongoDB, MySQL, Redis

CERTIFICATIONS

Claude AI Course Completion
Anthropic

NPTEL – Data Analysis with Python
IIT / NPTEL

NPTEL – Internet of Things (IoT)
IIT / NPTEL

LEADERSHIP EXPERIENCE

Treasurer – Department Symposium (ZORPIX 2026)

2026

Chennai Institute of Technology, Chennai

- Managed full budgeting, expense tracking, and transparent financial records for a department-level technical symposium attended by 300+ students.
- Coordinated approvals with faculty advisors and led cross-functional execution with the organizing committee for smooth event delivery.
