Career Objective

Motivated and analytical B.Tech Information Technology graduate with strong foundations in Python, Machine Learning, and Data Analytics. Experienced in building predictive models, performing exploratory data analysis, and applying supervised and unsupervised learning algorithms to real-world datasets. Seeking a Data Scientist where I can contribute to building data-driven solutions that improve customer experience and business outcomes.

Technical Skills

Programming: Python, SQL

Machine Learning: Supervised Learning, Unsupervised Learning, Model Evaluation, Feature Engineering

Algorithms: Linear Regression, Logistic Regression, Random Forest, Recommendation systems

Libraries: Pandas, NumPy, Scikit-learn, Matplotlib, Seaborn

Tools: GitHub, Jupyter Notebook, VS Code

AI Domains: Machine Learning, NLP, Deep learning

Projects

Zomato Sales Data Analysis (Python, Pandas, Data Visualization)

- Performed exploratory data analysis on Zomato restaurant dataset to uncover trends in customer preferences, restaurant ratings, and pricing patterns.
- Created visualizations using Matplotlib and Seaborn to identify high-performing restaurant categories and customer demand patterns.
- Generated business insights that can help improve marketing strategies and restaurant recommendations.

Heart Failure Prediction (Python, Scikit-learn, Predictive Modeling)

- Developed a machine learning model achieving **85% prediction accuracy** for heart failure risk.
- Applied supervised learning algorithms including Logistic Regression, Random Forest, and Support Vector Machine.
- Conducted data preprocessing, feature selection, and model evaluation to improve prediction accuracy.
- Achieved strong predictive performance through hyperparameter tuning and model comparison.

Training\ Internship Experience

Data Analyst Intern| On-Site

Feb 2025 - May 2025

Besant Technologies, Bengaluru, Karnataka

- Completed hands-on training in Machine Learning and Data Analytics.
- Worked with structured datasets to perform data cleaning, preprocessing, and analysis.
- Implemented supervised and unsupervised learning algorithms to solve analytical problems.
- Gained practical experience in model building, evaluation metrics, and real-world data interpretation.

Education

Bachelor of Technology – Information Technology

2021 – 2025 | CGPA: 7.8

Sri Venkateshwara Engineering College, Tirupati.

Certifications & Achievements

- AI Data Quality Analyst, NASSCOM, June 2025
